

Retrofit Academy Members Pavilion

NATIONAL RETROFIT CONFERENCE & EXPO

The National Retrofit Conference & Expo has rapidly become the UK's leading event for retrofit innovation and collaboration. Co-located with Futurebuild at London's ExCeL, it unites industry leaders, policymakers, and solution providers to accelerate the decarbonisation of UK housing.

Following the resounding success of our inaugural Members' Pavilion in 2025, we are excited to announce its return in 2026 - bigger and better than ever. This expanded space offers an unparalleled platform for Retrofit Academy members to showcase their expertise, connect with key stakeholders, and drive meaningful change.

futurebuild
